Karoshi, which can be translated literally as "overwork death" is a Japanese term relating to occupational sudden mortality. The most common medical causes of karoshi deaths are heart attacks or strokes due to stress and a starvation diet. Mental stress from the workplace can also cause karoshi through workers taking their own lives. People who commit suicide due to overwork are called karōjisatsu. The phenomenon of death by overwork is also widespread in other parts of Asia.

Job is the central figure of the Book of Job in the Bible. In rabbinical literature, Job is called one of the prophets of the Gentiles. In Islam, Job is also considered a prophet. Job is presented as a good and prosperous family man who is beset by Satan with God's permission with horrendous disasters that take away all that he holds dear, including his children, his health, and his property. He struggles to understand his situation and begins a search for the answers to his ...
