IFRS 9 - Impairment - KPMG Learning

IFRS 9 . Financial Instruments, effective for annual periods beginning on or after 1 January 2018, will change the way corporates – i.e. non-financial sector companies – account for their financial instruments. In the past, when major IFRS change has led to large-scale implementation

IFRS 9 for corporates - KPMG

KPMG's insights on evolving accounting practice for financial instruments. Introducing IFRS 9 IFRS 9 (2014) introduces new requirements on classification, measurement and impairment.

IFRS - Financial instruments - KPMG Lebanon

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' model, which means that a loss event will no longer need to occur before an impairment allowance is recognised. The standard aims to address concerns about 'too little, too late' provisioning for loan losses, and will accelerate recognition of losses.

Financial instruments - Introducing IFRS 9 - KPMG Global

IFRS 9, Financial Instruments, as issued by the IASB on July 24, 2014 (IFRS 9 (2014)), supersedes all other prior versions of IFRS 9. The standard is effective for annual periods beginning on or after January 1, 2018, with earlier adoption permitted. While IFRS 9 (2014) must be applied retrospectively in accordance with IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors, the standard contains specific transition provisions.

IFRS 9 also creates a fair value option for contracts that meet the own-use scope exception if certain conditions are met. This addresses the accounting mismatch that occurs when a derivative is used as an economic hedge of a commodity contract that is not accounted for as a derivative. The ASU does not include these fair value options.
