Making the Business Case for E-Learning Software

A business case captures the reasoning for initiating a project or task. It is often presented in a well-structured written document, but may also come in the form of a short verbal agreement or presentation. The logic of the business case is that, whenever resources such as money or effort are consumed, they should be in support of a specific business need.

Business case - Wikipedia

Making the Business Case for Virtualization Small to midsize businesses are increasingly using virtualization to reduce capital expenses, improve business continuity and make their operations more responsive. In this difficult economic environment, the IT budgets of small to midsize businesses remain under pressure.
