The neonatal and pediatric critical care codes are not time based but rather are reported per calendar day for the evaluation and management of a neonatal or pediatric patient. The codes are selected based on: Initial visit and subsequent days; Age and/or birth weight (for neonates) These codes can be reported only in the inpatient setting.

for neonatal and pediatric mass critical care. In this document, we outline the present reality and suggest alternative approaches. Methods: In May 2008, the Task Force for Mass Critical Care published guidance on provision of mass critical care to adults. Acknowledging that the critical care needs of children during disasters were unaddressed by this effort, a 17-member Steering Committee ...
